What Difference Do Cooperatives Make?

WDDCM For Migration: Northern Triangle (CRED_34)

Questions from Interested Parties & ICRG Responses

Questions submitted by parties interested in [CRED 34: WDDCM for Migration: Northern Triangle](#) with ICRG responses are collected below.

- Q1. Is it possible to know the estimated duration of the questionnaire?
There are approximately 60 questions for members, and 30 questions for non-members included in the survey.
- Q2. Will you also provide discussion guides for the qualitative phase?
We will provide discussion guides for the FGDs at a later date. The FGDs piece will be contingent on the feasibility of safe administration of the FGDs and the study's need to triangulate the key questions from the survey. ICRG will determine the discussion guides and the market research firm will be responsible for assessing the local feasibility and providing recommendations to ICRG accordingly.
- Q3. On page 6, under "Task 2: Focus groups of cooperative members, and key informant interviews with cooperative members, cooperative leaders, and community leaders based on the sampling plan" ¿Can you explain us how do you define a community leader?
Community leaders are those appointed by local governance structures, either traditional structures or state-affiliated community leaders.

As a reminder: In order for a proposal to be considered, one soft (electronic) copy of the complete technical and cost proposals must be delivered to OCDC's Research Group (researchgroup@ocdc.coop) by Friday, October 1st, 2021 at 5 PM EST. The estimated period of performance is from October 11, 2021 to February 28, 2022. More information can be found on the RFP itself, linked [here](#).
